Vasomedical is pleased to announce its new and unique synchronized ECG Holter and Ambulatory Blood Pressure Monitors in a single device! The Model 2301 and Model 2302 Combined Monitors provide advanced high resolution ECG Holter technology accompanied by a simultaneous presentation and analysis of blood pressure waveforms and digital results. Everything you need to obtain and verify the clinical data is now available in one lightweight, easy to use, multiparameter system.

**ADVANCED TECHNOLOGY**

- Three programmable operation modes:
  - Synchronized ECG Holter and ABPM,
  - 3 or 12-channel ECG Holter, or
  - Ambulatory blood pressure monitoring (ABPM) only
- High resolution and sample rate enables high quality ECG signal capture with less artifact
- Interactive recording for additional blood pressure measurements in the event of ECG abnormalities
- Arterial pulse waveform and tabulated numerical data can be reviewed in an easy, downloadable format
- Advanced amplifier and A/D converter design allows for exceptional signal fidelity
- Dual sensor, dual MCU and dual valve technology ensure patient safety including intelligent overpressure protection and failsafe monitoring
- Digital dual valve provides smooth deflation and the accuracy expected from the auscultatory method

**CONVENIENCE AND EASE OF USE**

- LCD displays measurement results as well as user-friendly icons to simplify task performance and data retrieval
- Easy push-button setup and fast download/analysis reduce technician time
- Removable SD memory card enables quick data transfer and turnaround of the device
- Both models are small and lightweight, resulting in minimum interference with patient activity
GENERAL

- **Accessories:**
  - 2 GB SD memory card
  - USB SD memory card reader
  - 5 or 7 lead ECG patient cable (Model 2301)
  - 10 lead ECG patient cable (Model 2302)
  - Carrying case & strap
  - Blood pressure cuff (Standard adult)
  - Infrared communication adapter
  - Recorder user manual
  - User Software CD

- **Recording time:** 24 hours
- **Storage medium:** SD card
- **Memory size:** 1 GB or more
- **Data transfer:** Full disclosure transfer via USB card reader; Setting and real-time data transfer via infrared port
- **Batteries:** 4 "AA" size alkaline batteries
- **Dimensions:** 4.88 x 2.68 x 1.22 (inches³) / 124 x 68 x 31 (mm³)
- **Weight:** 6.34 oz / 180 g (without batteries)
- **Regulatory compliance:** FDA cleared / CE Marked / Health Canada Listed ISO 13485 Certified
